

Tajik entrepreneurs are concerned about Uzbekistan's sabotage

According to the Tajik State news agency “Khovar”, business associations of Tajikistan held a meeting in Dushanbe on 26 March, where they adopted a joint appeal to international organization accredited in the country. The appeal concerns the actions of the neighboring Uzbekistan, entailing huge economic losses for Tajikistan.

The Tajik entrepreneurs voiced concerns about the “neutral stance” of the international organizations, who have chosen the role of “impartial observers” in this situation, when one country [Uzbekistan] violates the international law, and the other country bears losses.

The meeting was organized at the OSCE Bureau’s premises in Dushanbe; it was hosted by the Tajik State Investments and Property Management Committee under the government and attended by representatives of foreign development agencies – GTZ (German Technical Assistance), USAID and IFC.
